ASX ANNOUNCEMENT

CCP forms strategic partnership with Icon Global Link

MELBOURNE, Australia, 16 September 2016 – Agenix Limited (ASX: AGX) today announced its wholly owned subsidiary CCP Holdings Pty Ltd - provider of an affordable high quality Internet of Things (IoT) critical control point monitoring solution - has entered a strategic partnership with Icon Global Link (www.iglink.com.au).

Icon Global Link (IGL) provides a cloud-based solution for integrated risk planning, document management and distribution, compliance implementation, monitoring and data capture in supply chains. As part of the relationship, CCP has worked with IGL to ensure real-time critical control point data integrates seamlessly into IGL's platform.

“In line with targeting the food industry, this transaction provides a significant channel to market for CCP” said CCP's CEO, Michael White.

IGL work with leading Australia retailers to deliver compliance management and training systems. Their customers include Metcash Limited (ASX:MTS) - Australia's leading wholesale distribution and marketing company specialising in grocery, fresh food, liquor and hardware – which incorporates IGA, Supa IGA, IGA X-press, Friendly Grocer, Lucky 7 and other high-profile brands including Australian United Retailers Limited (AURL) - an independent retail supermarket group trading under the FoodWorks brand.

“Under the partnership, IGL will resell CCP's solution to its customer base” Mr White said.

About CCP

CCP empowers businesses to make better decisions with a low-cost, sophisticated IoT monitoring solution which captures and interprets real-time critical control point information. Critical control points are the points in a supply chain where a failure of standard operating procedure has potential to cause serious harm to people - and to a business' reputation and bottom line. Standard critical control points include temperature, energy, environment (e.g. air and water quality, pH, chemicals, noise, acoustics and gases) and movement.
